Independent Limited Assurance Report To the Directors of TAU Pty Ltd

Conclusion

Based on the procedures performed and the evidence obtained, nothing has come to our attention that causes us to believe that the issued supply of **AUDX** as at **31 March 2026** was not backed by equivalent or greater Australian dollar (AUD) reserves held in designated bank accounts in accordance with **TAU Pty Ltd's** stated reserve policy.

Scope

We have performed a limited assurance engagement in accordance with:

- **ASAE 3000** – *Assurance Engagements Other than Audits or Reviews of Historical Financial Information*; and
- **ASAE 3100** – *Compliance Engagements*.

The engagement was conducted to determine whether the issued supply of **AUDX** at **31 March 2026** was adequately backed by equivalent or greater AUD reserves.

The assurance procedures we performed included:

- Obtaining a statement from management on the issued stablecoin supply and AUD reserves at the reporting date;
- Inspecting blockchain ledger data to verify the issued token supply;
- Obtaining independent confirmation of AUD reserve balances directly from the relevant financial institution(s);
- Reconciling reserve balances to the issued stablecoin supply; and
- Assessing whether the reserves were held in designated bank accounts in compliance with the stated reserve policy.

Our procedures were limited to the matters set out above. We have not performed an audit, and therefore we do not express an audit opinion.
